PROJECTS

E-COMMERCE WEBSITE
Website to sell Clothes
2022-2023

- Developed a full-stack e-commerce website using PHP, JavaScript, and MySQL.
- Implemented user authentication, shopping cart functionality, and payment gateway integration.

FAKE NEWS DETECTOR
website that detects fake news

2024-2025

- Built a fake news detection system using Python with NLP techniques and a Naive Bayes classifier.
- Designed a basic front-end interface to input and display detection results.

UNITED INTERNATIONAL CONFERENCE
Website for Conference
2025

- Developed a MERN stack website to promote an international conference and manage admission workflows.
- Handled front-end, back-end, and database integration from January 2024 to February 2025.
